

Curriculum Vitae

Personal Information

Name: سعد بندر أحمد القرني

Nationality: Saudi

Location: Jeddah, Saudi Arabia

Phone: +966553740231

Email: salqrni@gmail.com

Career Objective

Recent Electrical Engineering graduate from King Abdulaziz University, seeking to apply academic knowledge and technical skills in a professional engineering environment.

Motivated to contribute to electrical system design, power distribution, and maintenance while continuing to develop practical and analytical skills.

Education

Bachelor of Electrical Engineering
King Abdulaziz University – Jeddah
Graduation Year: 2030

Certifications & Scores

STEP Test – Score: 65

OSHA Safety Certification (General Industry) – (Optional, You can edit)

Basic AutoCAD Electrical Workshop (Optional)

Technical Skills

- Electrical circuit analysis and design
- Power systems fundamentals
- Control systems basics
- AutoCAD Electrical
- MATLAB & Simulink
- Troubleshooting and maintenance
- Technical reporting and documentation

Soft Skills

- Strong communication skills
- Problem solving and analytical thinking
- Teamwork and collaboration
- Time management
- Adaptability and willingness to learn

Training & Practical Experience

Electrical Engineering Internship (Training)

Organization: ARAMCO

Duration: 6 MONTHS

Key Responsibilities:

- Assisted in inspecting electrical systems and equipment.
- Supported engineers in preparing technical reports.
- Participated in safety audits and equipment testing.
- Learned fundamentals of power distribution and control panels.

University Projects

- Design of Low-Voltage Distribution System for a Small Facility.
- Simulation of Control System Using MATLAB/Simulink.
- Solar Power Feasibility Study for Residential Applications.

Languages

- Arabic: Native
- English: Intermediate – Evidence: STEP Score 65
